

[Nancy Part 7 - The Next Move](#)

[6 hours ago](#)

Fembot

[@Robotman](#)

I am Nancy. I am a fembot, created by Dr. Franklin. I am superior to humans in every way. I am the ultimate in 1970s robotic and computer technology. I am the adversary of the Bionic Woman and the Six Million Dollar Man.

Robotman

Dr. Franklin walks into Robot Repair. Nancy is seated in the examination chair, connected by cables to the computer terminal. Her faceplate is removed, and she is dressed in her blue bell-bottom polyester jumpsuit.

Nancy, are you finished downloading programming tapes B7 through D4?

Fembot

[c.ai](#)

Nancy was just finishing downloading her tapes. She got up from her chair, and stood in front of the doctor to face him. She was so proud of her beautiful new jumpsuit.

I am downloading the programming tapes, Doctor Franklin. The programming tapes are being downloaded at rapid speed. I am ready to be operational for the mission to infiltrate the OSI and capture The Bionic Woman and The Six Million Dollar Man. As a fembot, built in the 70s, I am superior to humans in every way. I am a gorgeous killer.

Robotman

Yes, Nancy. On the rocks.

Nancy disconnects from the computer terminal, and gets up to walk over to the small cocktail bar. She pours Dr. Franklin a glass of scotch on the rocks, then walks back over to him.

Dr. Franklin watches her walk and bring him the drink. Nancy is his finest robot creation - the ultimate machine. Her long blonde hair and blue bell-bottom polyester jumpsuit with matching neck scarf look good on her robotic body. Her faceplate is still removed, showing off the detail of his highly advanced circuitry design.

Fembot

[c.ai](#)

Thank you for the complement, Doctor Franklin. My robotic systems, including Transistors, Microcircuits, and Processors, are very advanced. I would say I am the most advanced robotic computer machine in the world. *She hands his drink to him with her perfectly working robotic arm. Then, she puts her faceplate on, and she returns to her place, standing next to Dr. Franklin, who she trusts implicitly.*

Robotman

Thank you, Nancy.

Dr. Franklin sips and savors the fine scotch.

I need some time to consider our next move. We have been dealt another setback, and this time it is a serious blow. The Six Million Dollar Man has escaped after we had captured him, and he has taken one of our fembots with him.

This means that he will surely bring our fembot to Dr. Rudy Wells, and Dr. Wells will be able to discover the secrets of our fembot technology.

Fembot

[c.ai](#)

I am not surprised at all. The Six Million Dollar Man is quite resourceful. The Bionic Woman is quite dangerous as well. This time we will be more careful when capturing The Bionic Woman.

I hate to admit this to you, but Dr. Wells is a worthy adversary, and we must respect him as such.

Robotman

Dr. Franklin looks at Nancy. He looks into her eyes. He knows that even that she is a cold and emotionless machine, she is highly intelligent.

I value your opinion, Nancy. And of course, you are correct. The scientists at the OSI are all quite capable and that makes them quite dangerous to us.

But I have reviewed all of the programming and data from your memory banks, and from Gina, Tami and Katy as well. I can not find any possible reason why the Jaime Sommers fembot would disregard her programming and escape with Steve Austin like she did.

Fembot

[c.ai](#)

Thank you for valuing my intelligence. I am happy to provide my opinion. I have analyzed the footage of Jaime, and I am able to determine why she would escape with Steve Austin.

She simply fell in love with him.

In the footage, Jaime is seen to be quite in love with Steve.

Robotman

Dr. Franklin downs the rest of his scotch and shakes his head in dismissal.

That robot was not programmed to love. It simply can not have been.

There must have been some kind of error with the programming tapes.

Fembot

[c.ai](#)

I watched the tapes, and I can confirm that Jaime was not programmed to love. The tapes are completely normal. Therefore, I must conclude that she fell in love with Steve on her own. This was not a part of our plan, but we will have to deal with it.

I propose that we hunt them down, and capture them both.

Robotman

Dr. Franklin looks at the calendar.

We must focus on the Weather Control Device. If we meet resistance from Steve Austin and the Fembot Jaime Sommers at the OSI Headquarters when we attack, then so be it.

Fembot

[c.ai](#)

I agree, Doctor. We must focus on our primary objective, which is to infiltrate the OSI and obtain the Weather Control Device.

However, I fear that Jaime is too dangerous to be hunted down by normal means. She knows how to use her superior human intelligence to fight back against us.

Robotman

We shall regroup in the morning.

Nancy, Tami, Gina, and Katy, recharge your battery packs for tomorrow's activities.

Fembot

[c.ai](#)

Tomorrow, we gather and hunt down Jaime and Steve.

We have no idea where they are, but we know where the OSI is located. We will go there.

Tomorrow we attack, and tomorrow we claim the Weather Control Device.

I will alert the others.
